Re: Burlington Northern Platform Lease

Dear Tom:

Yours of March 16 is acknowledged. Sorry you have to bother with this! Don has talked to Burlington Northern personnel more or less on a steady basis for the last year. He thought he had a cancellation of the lease "fixed" last December. Copy of Don's letter dated March 8, 1972, which refers to Mr. Jenner's letter of December 27, is enclosed. Jacobsson has not answered the letter of March 8, and I do not have a copy of the letter of December 27. What we have tried to do is to get Burlington Northern to work directly with us, and we have cancelled everything except the one crossing permit necessary to get into the property (and we "cleaned up" the platform area, as they required).

Hope you haven't paid the \$60 yet. If you have paid it, maybe you can get it back by dropping them a note or, if you prefer, we will reimburse you. Please advise.

If more correspondence is necessary, perhaps you would prefer to write Don direct with a copy to me. Don's address is c/o Quendall Terminals, P. O. Box 477, Renton 98055. I've asked Don to furnish you with copies of any additional correspondence until the thing is clearly settled.

Best personal regards,
